EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

in accordance with 37 C.F.R. 1.126, claims 1.2, 1.3, 1.4, and 1.5 have been renumbered 2, 3, 4, and 5, respectively;

in accordance with 37 C.F.R. 1.78, the following text has been added before "BACKGROUND OF INVENTION" on page 1 of the specification: "This application is a divisional of U.S. patent application serial number 09/670,060, now U.S. Patent No. 6,609,725."

2. The following is an examiner's statement of reasons for allowance: the prior art neither anticipates nor makes obvious a method for securing a shank tube to a receiver tube comprising all steps as claimed in detail, in particular including steps of aligning a threaded nut *within* the shank tube with opposing holes formed in the shank tube, and engaging only a threaded portion of an elongated pin with the threaded portion of the nut until a side wall of the shank tube is firmly engaged by an inner side wall of the receiver tube. The above recitation, combined with the rest of the steps in the independent claim, clearly defines over the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
